

IN THE DRAWINGS:

Included herewith is a proposed drawing amendment change for the Examiner's consideration. No new matter is added by the proposed drawing changes.

IN THE CLAIMS:

Please amend the claims such that, after said amendment, they read as follows:

Sub A1B1 7
10. The computer-readable medium of claim 9, further including at least one dynamic link library (dll) defining a UI screen, and wherein said display order textual listing contains a textual reference to said dll.

A2
Sub B1 7
12. A computer-readable medium having stored thereon computer-executable instructions to perform the steps of:
acquiring a textual listing of user interface screens for each of a plurality of applications in a suite that are to be installed;
acquiring the user interface screens identified by the textual listing; and
displaying the user interface screens identified by the textual listing for each of the applications in the suite that are to be installed.

REMARKS

Claims 1-15 are pending in this application, stand rejected, and are at issue herein. Claims 10 and 12 have been amended as indicated above to correct a spelling error. The Specification has been replaced with a new Specification that places it in conformance with the current practice of providing paragraph numbers instead of line numbers. Further, the replacement Specification includes various corrections required by the Examiner regarding references to the drawings, the inclusion of the meaning of various acronyms, and the replacement of "[" and "]" with "(" and ")" so as to not confuse the use of these symbols with printing instructions used by the United States Patent and Trademark Office.
